ADJUSTABLE WIRE HANGERS & SPIRAL FIXINGS

Installation for SilentBaffle is quick and easy and can be completed with basic tools and appropriate fixings for your ceiling substrate. Rafts are simply suspended from wire hangers directly to the soffit or existing ceiling. Spiral hooks fit securely into the top edge of the baffle and 1m adjustable wire hook fixings allow for perfect alignment.

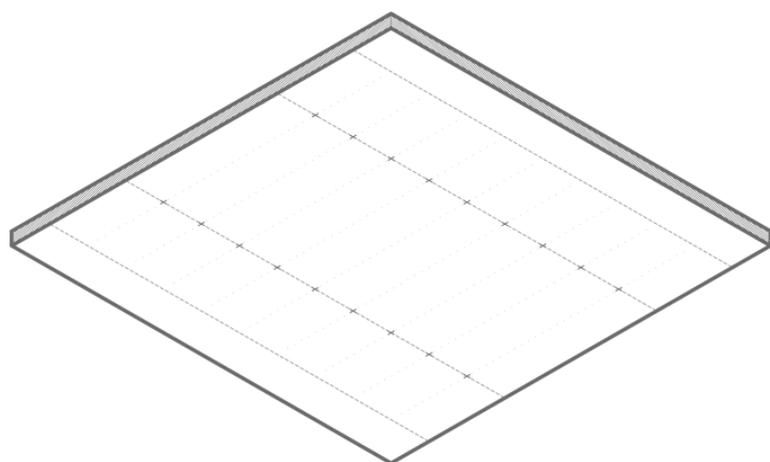

Smaller Size Baffles
(2 hangers)

Larger Size Baffles
(3 hangers)

Step 1

On the top side of the baffle, mark out the locations for the supplied spring anchors. Apply pressure and screw in the fixings clockwise, allowing them to bite into the glass wool core of the panel. Generally 150-300mm in from the edge.

Step 2

Mark out location on the ceiling where you will install the top eyelet fixings for the adjustable wires. Location should match where the springs have been installed on the baffles.

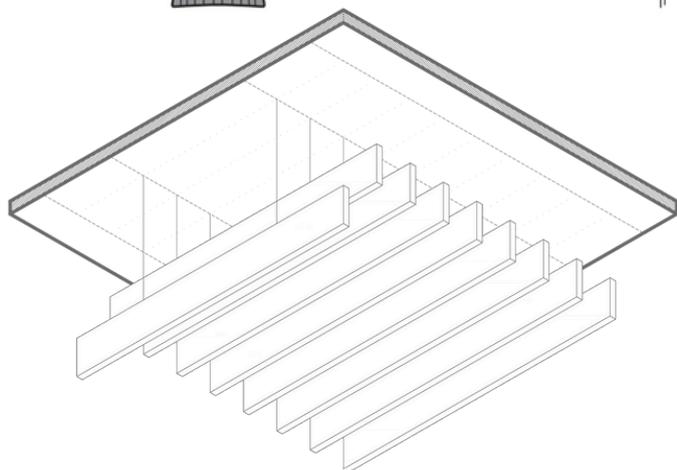

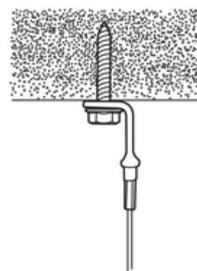

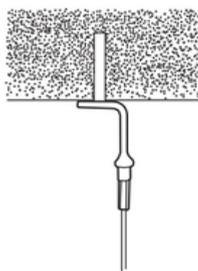

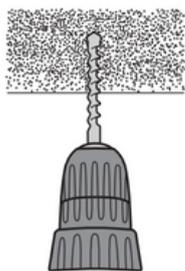

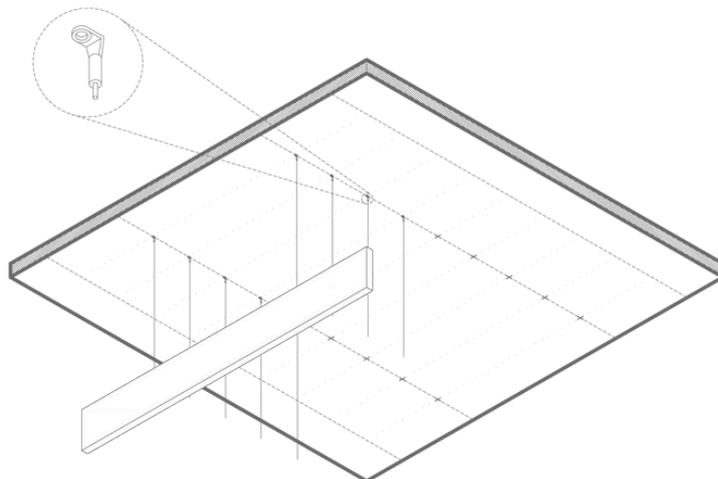

ADJUSTABLE WIRE HANGERS & SPIRAL FIXINGS

Step 3

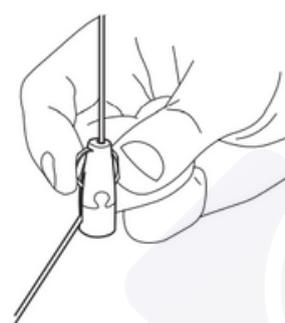

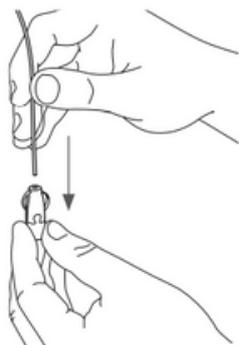

Install suitable fixings into your ceiling substrate and fix the 90 degree eyelet securely into the ceiling. Allow the wire and hanger to dangle freely at its full supplied length to allow for full adjustability.

*Wires are supplied at 1m length as standard, but available in longer lengths on request.

Step 4

Lift the raft into place, and clip the wire hangers onto the spiral fixings. Adjust wires up and down to get the raft into the desired position, and level. Once happy with the positioning, excess wire can be snipped off or just tucked up out of sight.

CAMIRA BLAZER

Blazer is a classic pure new wool upholstery fabric with a billiard cloth felted finish. It is made from premium New Zealand lambswool, where responsible farming provides the highest quality raw material which is soft, clean and bright, which is ideal for spinning, weaving and dyeing. The colour palette is an exciting mix of solids and mélanges across the full colour spectrum, creating a versatile fabric suitable for wide-ranging furniture applications.

CAMIRA SONUS

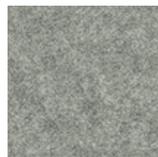

With a fibre felted finish and an appealing mélange effect, the Sonus range is the ideal accompaniment for a modern interior. An acoustically transparent fabric for use on panels, Sonus is the perfect enhancement for a range of vertical surfaces. The complementary Sonus Etch is available in two understated grey shades, bringing added depth with its subtle embossed lattice design.
